EXPERIENCE

Independent / Freelance — AI Automation & Full-Stack Engineer

Remote · 2024 – Present

- Build GoHighLevel CRM automations and LLM-driven workflows (Claude Code, MCP) that replace manual processes, wiring live integrations — Stripe, ElevenLabs, WhatsApp, Meta — into client pipelines.
- Develop and deploy full-stack web and mobile apps (MERN, Laravel) with secure auth/JWT, REST APIs, and Stripe payments; ship to Railway, Vercel, and Render.
- Apply QA discipline — API contract checks and regression passes — to keep systems reliable under real usage.

Data Encoder — Department of Social Welfare and Development, Camarines Sur

Naga City, Philippines · 2022 – 2025

- Encoded, organized, and maintained accurate beneficiary and program data supporting efficient delivery of social welfare services.
- Safeguarded data integrity across large datasets; strengthened attention to detail and process consistency.
